

Chris Ornstein – professional tennis player

“I began taking **Pure-Col** about 5 years ago for a “shoulder” that had been causing me severe aggravation for several months and which I honestly say no longer causes me to lose any sleep after a hard match.

My wife Ginny commenced some 2 months later after seeing how my hair had become stronger and shinier, and noticing that my skin was definitely smoother. Ginny’s main concern was quite severe arthritis in several fingers and she can happily report that “other than an occasional twinge, all the pain and stiffness has gone”.
