

Going for Gold with Pure-Col

Becky Lyne born 4/7/1982,

Club Hallampshire Harriers,
Events 800m , 1500m.

" I am an international athlete and was voted Britain's Female Athlete of the Year for 2006 following my bronze medal winning performance at the European Championships in the 800m. I am also the former European Under 23 800m champion, and at only 24 years of age I have a number of potentially

successful years ahead of me. Indeed I expect to reach my peak around 2012. I first read about the unique enhanced Amino Locked Pure-Col in a running magazine and was impressed by the benefits it is said to offer. Having suffered from a number of injuries in recent years I hope to gain from its tissue-strengthening

properties to reduce the risk of future problems. This, together with the fact it may promote recovery from training, assist in the reduction of body fat, aid more restful sleep and increase energy levels, all mean that I am sure it is a product that can positively contribute to my athletics career . I am now taking 3 Pure Col Collagen capsules every night and hope I will also benefit from healthier skin, hair and nails –

I would recommend Pure Col to both men and woman who want to look and feel good naturally"

" if you want to feel the very best you can and want to achieve your goals – try Pure Col "

Steve Vernon

Club: Stockport Harriers DOB: 17/10/1980
Events: Cross Country/Mountain Running

"I am an international distance runner and have represented Great Britain at the World Cross Country Championships on 5 occasions. I have also twice been the British Short Course Cross Country Champion.

During a typical weeks training I log over 80 miles of running on rough terrain. This regime is gruelling on the body and I regular suffer with small injuries and tissue damage. Becky Lyne UK's 800m "champion" told me about 'Pure-Col' and how it could benefit me and my training.

The Unique enhanced Amino Locked Pure-Col has many benefits including promoting and aiding recovery, but its tissue strengthening properties are what interested me the most. **So now I am taking Pure Col every day and like Becky I'm going for Gold**
